Project Work

- **Image Editor Webapp (2024):**
- **Role:** Developer
- **Institution:** Technocrats Institute of Technology
- **Technologies Used:** HTML, CSS, JavaScript

- **Description:**
- Developed a user-friendly and efficient image editor website in collaboration with Harsh Vishwakarma. The project showcases a variety of image manipulation tools and real-time preview capabilities, designed to cater to both beginners and advanced users.

- **Key Features:**
- Simple and intuitive user interface
- Various image editing tools (crop, resize, filters, etc.)
- Real-time preview of changes
- Easy to use for users of all skill levels

- **Achievements:**
- Enhanced coding skills and understanding of user-centric design
- Gained experience in attention to detail and effective project collaboration
- **Food Delivery website (2024):** HTML, CSS, JavaScript Designed and developed a responsive food delivery website with a user-friendly interface   Implemented interactive features such as order buttons and a contact form using JavaScript. Styled the website using CSS to ensure a cohesive and visually appealing design. Ensured cross-browser compatibility and mobile responsiveness for an optimal user experience.

Awards and Certificates

- **Google Certificates:** ”Foundation of Cyber Security” , ”Introduction to Generative AI”

- **AWD Certificates:** “Introduction Technology and AWS Cloud “

- **Microsoft badges:** “Prepare to Develop AI solution on Aure”

- **IBM Certificates:** ”Cyber Security Fundamentals Course” , ” Penetration Testin”

- **Great Learning Certificates:** “Google Search Campaign”
